EXPERIENCE

Biolege ~ Flutter Developer Intern (Oct 2020 – Jan 2021)

- ❖ Use of Flutter to develop their application structure.
- ❖ Building custom widgets in Flutter.

Certificate : <https://drive.google.com/file/d/1GHW138IKxy36PXQW1a6CSNcyKzIByp-/view?usp=sharing>

Wordsmith ~ Django Project

A social media website specifically for writers, where writers can post their thoughts and quotes by grabbing a pen name. I have developed this site using Django Here I have worked on the authentication system and used Postgres to save user data.

Github: <https://github.com/umorjyoti/WordSmith>

Color Palette ~ JavaScript Project

A color palette website that lets you select a perfect color scheme for your next project or website. I have made use of hue ,saturation and brightness to modify the colors.

Website: <https://priceless-noether-67ff81.netlify.app>

Portfolio ~ ReactJS Project

A website that provides professional information about myself and let me showcase my work to everyone on the web. I have made use of ReactJS framework to build this website.
